PROFESSIONAL SUMMARY

Flutter Developer with **1.3+ years of experience** building **scalable cross-platform applications**. Skilled in **REST API integration, Provider-based state management, JWT authentication, pagination, lazy loading** and **performance optimization.** Experienced in **Clean Architecture and MVVM**. Follow **coding best practices, maintainable design principles,** and **collaborative development standards.** Committed to delivering **high-quality solutions** aligned with **business objectives** and **company goals.**

TECHNICAL SKILLS

- **Languages & Frameworks:** Dart, Flutter SDK, Java
- **State Management:** Provider, setState, Riverpod, BLoC, GetX
- **Architecture:** Clean Architecture, MVVM
- **Networking & APIs:** RESTful APIs, JSON parsing, HTTP/Dio
- **Backend & Cloud Services:** Firebase (Authentication, Firestore, Cloud Storage, FCM)
- **Local Storage:** Shared Preferences, Secure Storage, SQLite, Hive
- **Third-Party Integrations:** Google Maps SDK, Payment Gateway Integration
- **Tools & Platforms:** Git/GitHub, VS Code, Android Studio, Postman, Swagger, Figma, JIRA
- **Project Management & Methodologies:** Agile, Scrum, Sprint Planning

---

PROFESSIONAL EXPERIENCE

Flutter Developer

Cortracker IT Private Limited | *Hyderabad, India* | *Nov 2024 – Present*

Project: CORtracker

- Developed **cross-platform** enterprise app using **Flutter** (Android, iOS, Web, Desktop) with single codebase.
- Converted **UI/UX Figma designs** into responsive, pixel-perfect UI screens.
- Implemented **Clean Architecture** with **feature-based** modular structure across **11+** business modules.
- Integrated secure **REST APIs** using a **centralized ApiClient** with base URLs, common headers, and token management, error management, and logging.
- Implemented **role-based access control** using **4-level permission model**.
- Managed API **loading, success, and error states** using **Provider** for reactive UI updates.
- Implemented **pagination** and **lazy loading** for large datasets, improving screen load time by **~30–40%.**
- Built **interactive dashboards**, **KPI cards, and charts** using **fl_chart** and

reusable widgets.

- **Optimized performance** using efficient **state management** and minimized widget rebuilds.
- Implemented **robust error handling**, **timeout logic, and network connectivity checks.**
- Created centralized shared components folder, reducing **duplicate code** by **~25%** and accelerating **feature development** by **~30%.**

Project: HRMS

- Implemented **MVVM Architecture** for scalable and maintainable structure & clean separation.
- Integrated secure **REST APIs** from the backend team into flutter.
- Developed **JWT-based role authentication** with **multi-level access control (Super Admin, Admin and Employee).**
- Managed API **loading, success, and error states** using **Provider** for reactive UI updates.
- Implemented **pagination** and **lazy loading** to efficiently manage large employee datasets.
- Implemented comprehensive **error handling** for network failures , **timeout logic,** and **network connectivity checks**.
- Optimized performance using efficient **state management** and minimized **widget rebuilds.**

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering
Narasaraopeta Engineering College | *Narasaraopet, India* | *June 2024*
GPA: 8.2/10

Intermediate (MPC)
Sri Saraswathi Junior College | *Ongole, India* | *May 2020*
GPA: 8.5/10

Secondary School Certificate (SSC)
Vikram High School | *Ongole, India* | *May 2020*
GPA: 9.5/10
